

Job Site Photos

Boyce Excavating Co. Inc.

Est. 1939

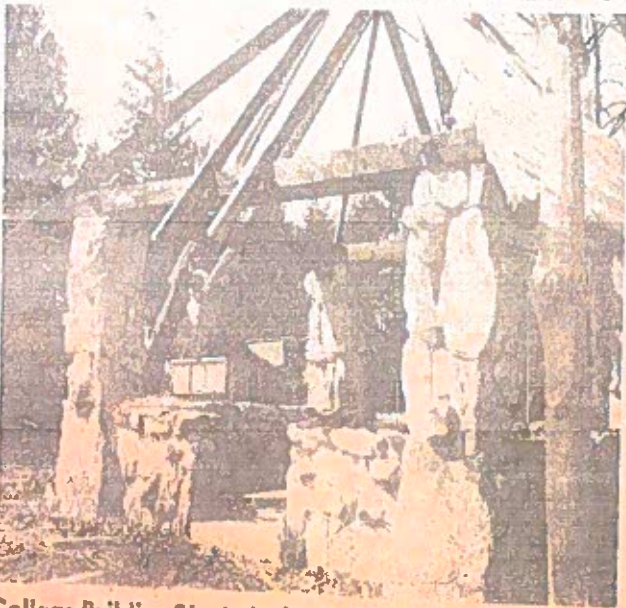

Boyce Excavating has been “Moving the Earth” since the company was founded in 1939. Since it’s founding the company has been passed down through the Boyce family. Garry Boyce Jr. is the fourth generation to own and operate Boyce Excavating.

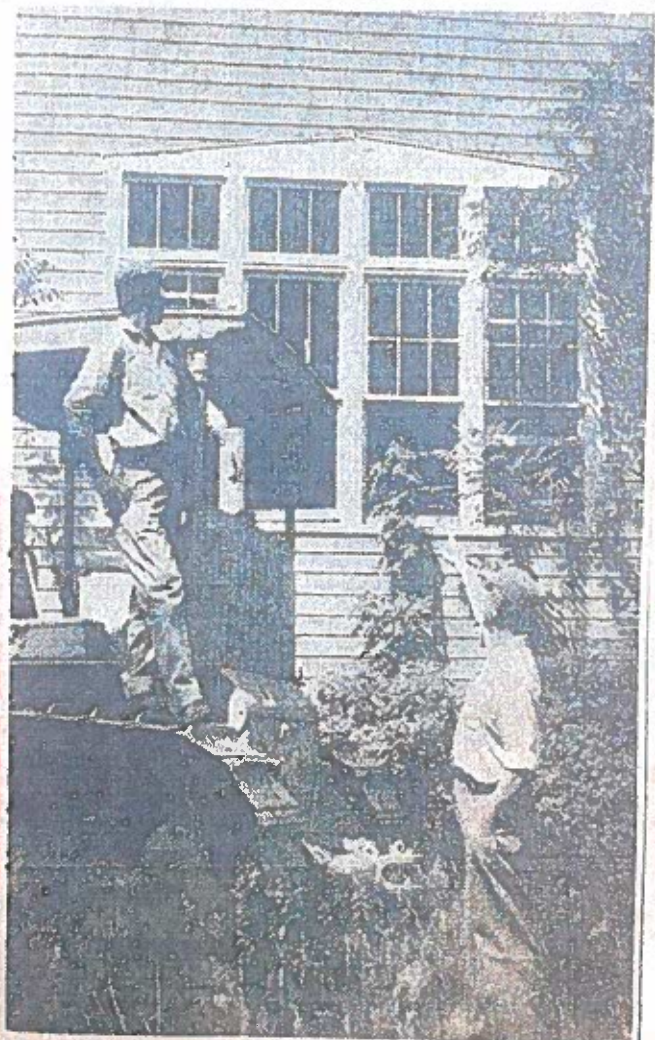

A Look Back Over the Years...

MARCH 30, 1955

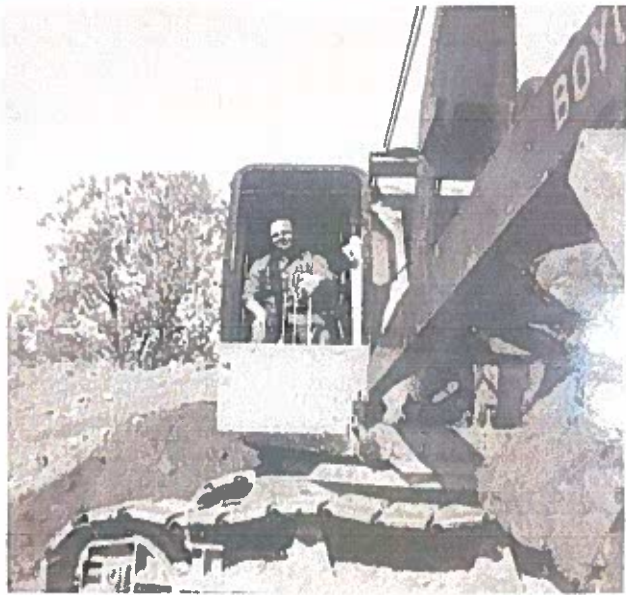

College Building Started: Ground breaking ceremonies were conducted at Orange County Community College yesterday for a construction of a new laboratory and classroom building. In the picture above, Virginia Sheemaker, president of the Student Council, is shown at the controls of a bulldozer which broke ground for the \$274,544 building slated for completion in September. Crew from the Evers Greenaway Construction Company of East Orange, N. J., which holds the building contract, have begun to raise the well-house on the former Morrison estate (below) to make way for the laboratory. College officials and students and construction company personnel attended the special ceremonies.—Photos by Lee.

MIDDLETOWN, N. J., FRIDAY, MAY 31, 1957

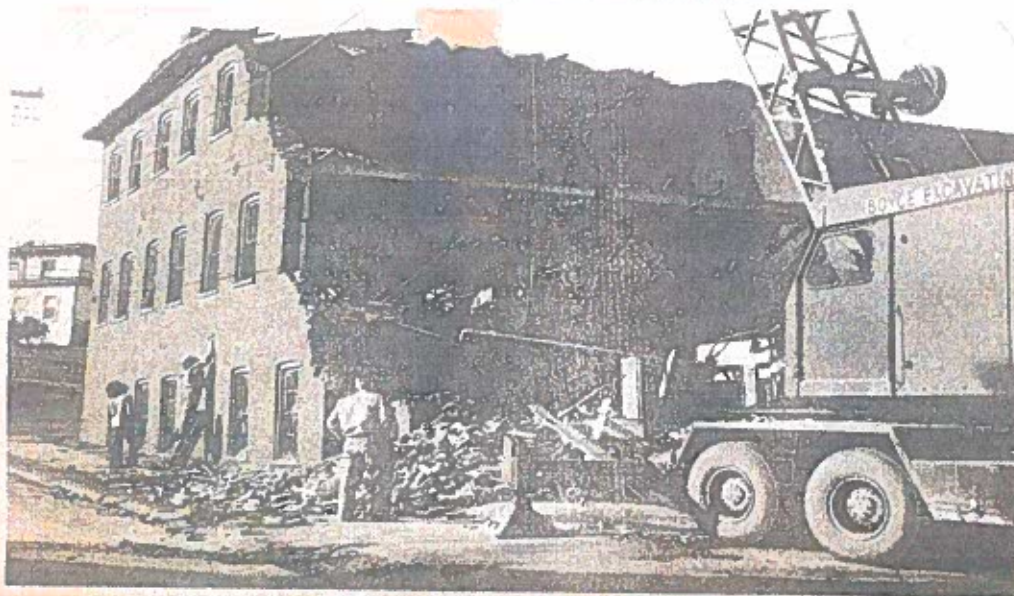

Clearing Market Site: Grading and clearing operations by the Middletown Excavating Company have begun at former Ursuline Academy site, East Main street. Gymnasium building, rear, will be razed. Excavator is preparing site for new \$350,000 Acme supermarket. Samuel Sherman, left, of 96 Sprague avenue, an employee of the contractor, talks with John Perna, 26 Myrtle avenue, a spectator, during lull in land-fill and demolition operation.—Photo by Ericson.

ORGANIZATION

EXPERIENCE

PERSONNEL

Wednesday, December 24, 1975

Boyce Excavation crews remove burned remnants from the WALL radio building Tuesday after a Sunday fire destroyed the third floor of the structure claiming three lives.

—Record photo by Carol Odevseff

Wed June 5, 1955

Last call

Wed June 5, 1955

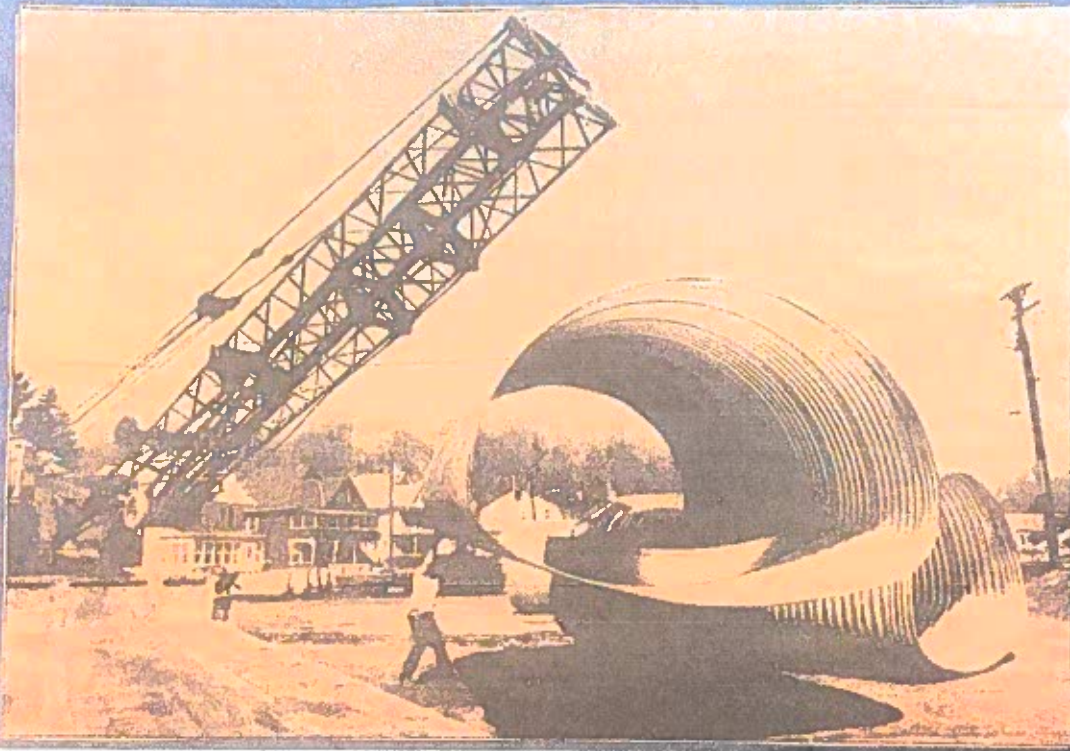

Record photo by Mike Carey

A frontend loader moves through the rubble of the former Red Rooster Saloon along Route 17M in New Hampton. According to workers who helped build the structure,

many of the timbers in the saloon came from the demolition of the 1939 World's Fair. The land will now become a used car lot.

Monday, April 28, 1956

THE NEWSPAPER RECORD

Pipes unpacked

Gary Boice guides a large culvert pipe being unloaded from a truck at the Middletown Department of Public Works (DPW) yard. The culverts will be used in the DPW's construction of a parking lot over the Monahan Brook between the DPW and E.A. Morse Co. paper company. Existing parking space will be lost due to a planned building expansion.

MIKE CAREY/The Record

Time out

Firefighters sit on a curb resting yesterday after a nightlong battle against a blaze that destroyed five downtown

Middletown businesses. As a demolition crew razed the building, residents talked of rebuilding. Story, page 3.

Work zone

Bill Hemstead of Milford, Pa., helps excavator operator Gary Boyce Jr. of Middletown place a catch basin grate in place where the new Orange County Trust building will be built at the corner of Dunning Road and County Route 108. The bank is replacing its branch on Route 211 East, opposite Wallkill Town Center.

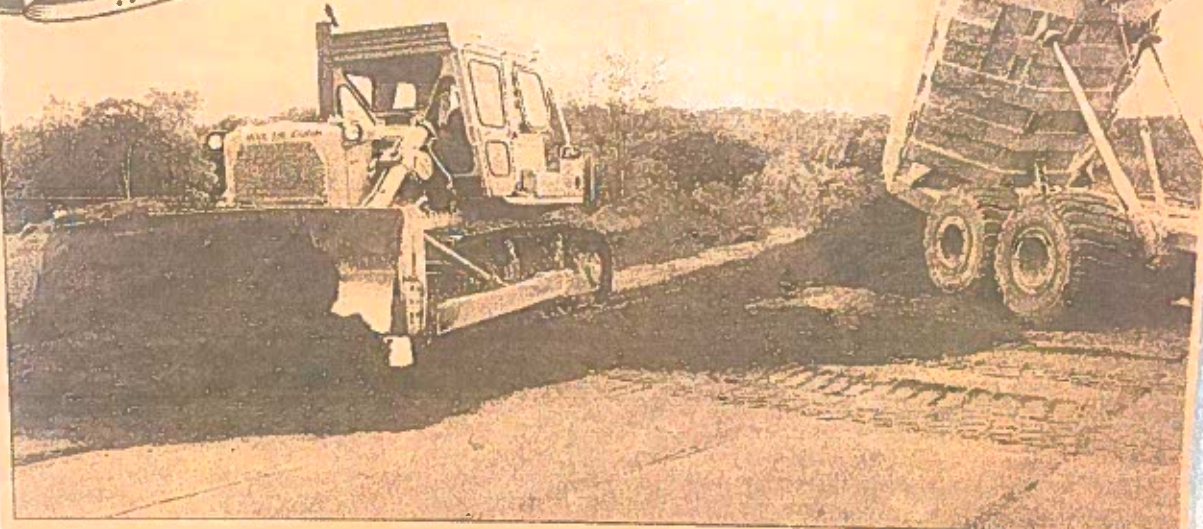

JEFF GOULDING/The Record

9/12/96

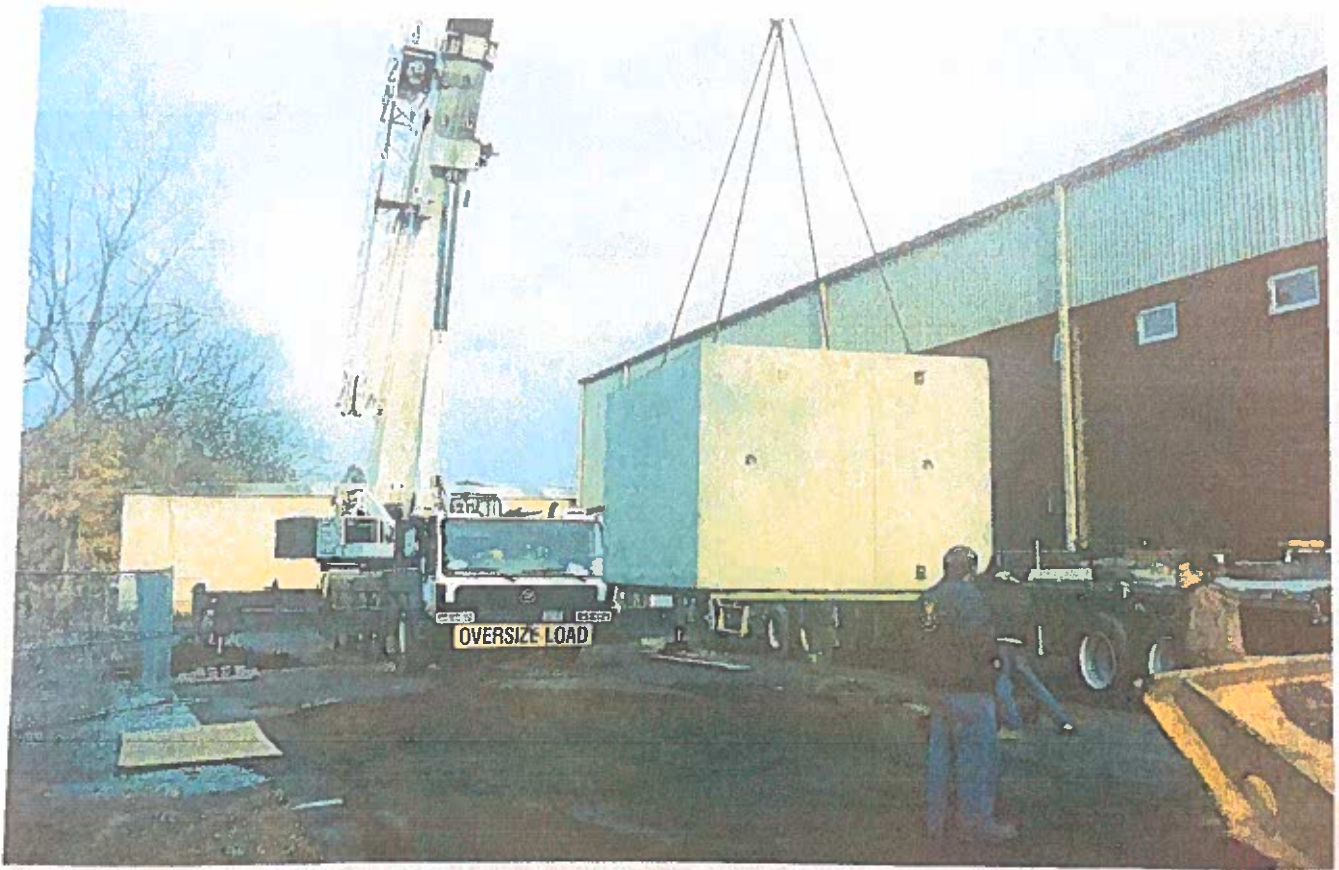

Workers from Boyce Excavation, including Tom Greiner in the bulldozer at left, fill in low areas to prepare for construction at the future site of Middlecrest Crossing Senior Apartments in Middletown. The complex should open in about 16 months.
